Minerals Cadastre Map

OFFICIAL SEARCH
FOR
HUJAK MINING LIMITED COMPANY

- 1) This search is valid as at the date and time the search was conducted, as stated below
- 2) Details on this Map are subject to change without prior notice to applicant.
- 3) Applicant must leave 100m buffer zone from Roads, Forest Reserves, Streams, Rivers, Railway lines, and 300m from pylons when applying for a Mineral Right.
- 4) Final maps for Mineral Right Applications should be certified by the Regional Surveyor.

 Site Plans generated for mineral rights for rock aggregates, sand/gravel, clay, salt, small scale gold/diamond and exploration licences/mining leases are required to conform to the geometric sections provided on the cadastral map, which must be contiguous. Henceforth, irregular shape concession boundaries will be accepted for processing.

 A block is 0.21 Km² Approx.

 Prospectings	 Proposals	 Sand Licence	 Small Scale Licence
 Mining Lease	 Quarry & Industrial Minerals	 sand proposal	 SSM_Application
 Reconnaissance Licence	 Proposed Quarry Concession	 Salt Proposal	 Forest Reserve
 ITC_Approved_Concessions	 Salt Licence	 Small Scale Blocked-Out Area	 Restricted Area
